

TECHNICAL SPECIFICATIONS

CREPE LONG STRIP

Code : S526055

Description : Crepe long strip 4,5m x 10 cm

To compress a wound or a swollen limb. For any type of fixation. Ideal for the maintenance of the dressings and the articulations.

Material : 76% cotton-polyester + 24% spandex – sewn edge

Colour : white

Dimensions : 4,5x10cm

Standards : Medical device class I according to Regulation (EU) 2017/745

Instruction of use:

- Tear off along the upper edge of the inner package to remove the product.
- Open the bandage at one end, wrap it all around the wounded limb on the compress or dressing.
- Fix the other end of the bandage with medical tape.

Precautions of use and contraindications :

- Single use only, to be destroyed after use
- When you fix the bandage on your limbs, you can't wrap it too tightly to ensure the normal circulation of blood.
- Store in dry place and room temperature.
- For external use.
- Keep out of reach of children.

Validity date : 5 years
